RE: Abatement Request 41 Stacey Ave.

I do not recommend granting this abatement request, based on our records for the previous year. The usage for this past quarter would have to have been higher this year, than it was last year for the same time period, meaning their usage went down with the reported leak.

During the first quarter of this year, 6,356 gallons were used and last year, during the same time period, 7,406 gallons were used. In order for an abatement to be considered, the usage would have to have been higher this year, than it was last year for the same time period.

Respectfully,

Curtis Slayton  
Water and Sewer Superintendent
