Subject: Re: Abatement Request Form

Hello Evie,

It was an outside pipe that burst in the late fall (end of November, beginning of December). It was the pipe for the lawn irrigation system and the overflow was in my yard. You stated because none of the water went through the sewage system that I should not be charge for that piece of the bill. I did discover the problem until late January (via a very large ice cube). The pipe has since been repaired by a licensed plumber.

Thank You
Denise

Hi Denise,

Sorry for the delay, but I kind of knew when I read what you wrote on the abatement paperwork, it may not fly. I know we spoke about what had actually happened, but it need to be noted on the request. As it turns out, I don't remember exactly what the leak was from, as I speak with numerous people throughout the week. Can you elaborate a bit more? What exactly was leaking, how you discovered it, how it was repaired, etc? Was there a plumber involved in the repair, do you have an invoice for the repair?
