

Hello,

Currently our Boys girls Travel teams are playing games at the RIM and practicing at the Community Center. If we were to have parents pick to play either In-House or Travel, it is highly likely all of the Travel players will pick Travel. That would decimate our in-house program. That is 40 players. It seems as though 40 wouldn't be bad, however we can't mix age groups like 2nd grade plays 8th graders. So, this would likely leave us with 1-3 teams per age group and that doesn't count for a "league". I think the best option would be to keep both and we will inform the parents for those players who only play In-House that there are players on their team that play Travel. Numbers and age groups below.

K-1st we have 16 players and 4 teams. The RIM does not affect this age group

2nd-3rd we have 32 players, 13 cheerleaders, and 4 teams (4 players are on teams that play at the RIM)

4th-5th we 34 players and 4 teams (17 players play on teams at the RIM)

6th-8th we have 36 players and 4 teams (19 players are on teams at the RIM)

We are following state guidelines for Amateur and Youth Sports in order to ensure health and safety of people involved with the program. They were updated December 9, 2020.

<https://www.covidguidance.nh.gov/sites/g/files/ehbemt381/files/inline-documents/2020-05/guidance-amateur-youth-sports.pdf>

The RIM has guidelines that players, coaches, refs, and spectators must follow. Below is a link to their website.

<http://therimsports.com/re-open-procedures>

In addition to the state guidelines we have put in some of the following guidelines at our facility:

We have reduced the amount of spectators 2 people per player. Max 50ish spectators and the players, coaches and staff.

The gym will be set up with seating that is socially distanced

Temperatures will be taken at the entrance of the building with the protocol questions being asked.

Only players and coaches may attend practices.

Schedule has been set up with 30 minutes between games and practices to sanitize the building.

There was some concern with how football and other sports were being played. All area sports whether in Seabrook or not have been running using State Guidelines. I know during football if someone tested positive on a team or there was possible exposure games were cancelled and protocols were followed. We will most certainly do this and we are relying on the RIM to follow the guidelines as well.

There is also potential that players are doing other activities such as music, drama, martial arts, hockey, soccer, volleyball, dance, boy scouts, girls scouts, etc. It would be difficult to "hunt" this information from each player.

Thank you,

Katie Duffey
