Report of The Fire Department

Date: January 4, 2021

To: The Board of Selectmen
and William Manzi, Town Manager

Prepared By: William J Edwards, Fire Chief

We wanted to start by recognizing some of our members for their work with the Toy Bank this year, FF Troy Coleman and FAO Zach Annis for leading the charge this year. We had many members help out at the stuff the bus held at Walmart and processing the toys at the station. It was a total team effort, in all we were able to hand out toys to almost 80 families this year.

Most of these toys are donated by the local community at the various businesses in town that allow us to leave a drop box. Our ability to do this every year is through the generosity of our community, and we wanted to say thank you to all of those who were kind enough to make donations, we really do appreciate it.

We had a great night for bringing Santa through town. We saw a huge number of kids and adults out waiting to see him this year. We are really excited for this every year and it's something we look forward to. The Grinch showed up again and was eventually escorted out of town by our Police Department.

We would like to thank Lowes, Ocean State Job Lots and Baker Animal Hospital for making various donations or PPE and other items throughout 2020

2020 was a year unlike any other, we as a department have had to rethink how we do our jobs and how to maintain services while maintaining a high level of safety for both our residents and our firefighters. We made continuous policy updates and changes trying to keep up with new information as it was provided to us. Our ultimate goal of maintaining services at a high level and keeping the community safe was preserved throughout all of these challenges.

Respectfully,

William J Edwards
Fire Chief
