Seabrook, NH 03874

RE: Master Plan update

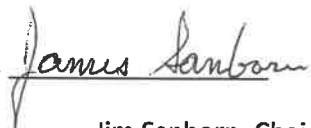

Honorable Selectmen:

As you are likely aware, NH law requires the municipal Planning Board to update the Town's Master Plan when conditions warrant, and at a minimum, every five to ten years. The current plan was published in 2011.

On February 16, the Planning Board voted to direct Town Planner Tom Morgan to commence the process of updating the plan. The board is asking for \$5,000 to \$10,000 in seed money to help generate the Master Plan. We will of course, keep you apprised of our progress, and will welcome your participation. We will strive to bring in a wide spectrum of the community to actively participate in the process.

For your reference, please find herein a copy of the state statute that guides municipal Master Plan preparation, NH RSA 674:1-4.

We look forward to working with you.

Sincerely, 

Jim Sanborn, Chair

Planning Board
