

Gentlemen,

Please consider my suggestion that the beach parking plan reverts back to the placard system that was used before last season. As a beach resident, I support the placard system. It did not seem fair to exclude the part-time, seasonal residents from parking at the beach last season and there does not appear to be a valid reason to do so again this season. The beach has plenty of room to social distance and the amount of people being vaccinated is going up every day. I was told that this would be a topic of discussion at the next meeting and that input from the public would be considered. As I am working I can't attend the meeting.

Respectfully,

Seanna DiStefano
