

Good morning Bill -

Just a quick note to place support for reinstating the parking placards for homes at the beach. So few have the ability to have guests in the summer unless they have a way to allow them to park on the street. As you know, I am all for everyone having the opportunity to use God's beach, but I don't think that the people who live at the beach should be denied the ability to have company in the summer. I wouldn't want those who live off the beach to be denied visits by family or friends, especially after such a difficult year of isolation. So, I don't think we should do that to the residents of the beach area either.

Thanks for listening.

Blessings,

Bridget
