Seabrook Board of Selectmen  
March 29, 2021

Judy Hogan Lot #67

I have owned my beach house for 11 years!..I take pride in Meadowstone and my home. I take pride in my beach.

I follow the rules.... and I pay Seabrook taxes as I should....

I am writing this letter to earnestly implore you to allow us to have placards once again... It is understandable that because of

the Covid Pandemic, last year you had to do what you did. This year, however, Covid is more under control and most of us in the

park are, or will be vaccinated when we arrive there May 1. Also most of us at Meadowstone are at an age where what maybe easy for younger people is more difficult for us.

I suffered an illness last year and was hospitalized 94 days. I am almost back to normal but I long to drive to the beach, park, and walk

the lovely shores...I live alone. If I can't park my car I have no one to ask for a ride early mornings. It is not safe for me to walk down Rt. 286..

I do not know how much time the good Lord is giving me to continue to enjoy the ocean that I so love and have all my life....I grew up in N.Andover , and as a family, my Dad took us to Seabrook,

Salisbury, and Hampton beaches alot to fish ... Its in my blood...My 3 children and 10 grandchildren love it as well....although scattered across the country..we try to get together at least yearly at the

beach house ...many many memories have blossomed and I can tell you all we are very respectful of our little piece of heaven. We absolutely leave it pristine and never leave trash behind. It is something NONE of us would do!!!!!! Never, Never, Never....

As you might be able to tell, I am proud of my family!! 7 out of 10 grandchildren are in or have graduated college.... 3 more to go.

They are wonderful, lovely, respectful young adults....I only see most of them once or twice/year...so they absolutely love 'Mee

Mee's" beach house when they do come.

I apologize for getting so off the track, but I beg you, please consider your votes. Try for one moment to put yourselves or a family member in our shoes....heaven on earth for 11 years and now an attempted block in our last years of life!!

Thank you for your consideration...

Respectfully, Judy Hogan
