MAINTENANCE

Daily maintenance and cleaning is an ongoing task and has been going okay. We work together as a team to make sure that the building is properly cleaned and sanitary for all; employees & patrons. I do have a few key staff on board that will go above and beyond with helping out to make sure things are taken care of and clean.

We have an incredible Night Crew who makes sure the building is ready to open the next day. A lot of hard work goes on after 6pm when we are closed.

We have been slowly making repairs to our HVAC system while trying to remain within our budget.

FUTURE FIXES

Our oven will need to be replaced soon, it is also 30+ years old. It works, but cooks unevenly.

We would like to replace our countertops as our Kitchen area is outdated and is in rough shape. The sinks have lost their seal leading to water damage between the two sinks resulting in rotting under the current laminate countertops. Numerous people & groups utilize our Kitchen space so it's pertinent that it gets a little revamp. I do have a plan in place to fix the counters hopefully by this year.
