Re: 2024 Water and Sewer Truck orders

As you already know the Water and Sewer Departments have just finished 5-year lease payments for 2 vehicles in each department. Using the same budgeted funds, it is my recommendation that we replace one vehicle in each department. The vehicles to be replaced are a 2012 dump truck for Water and a 2012 utility body truck for the Sewer Department. I have included quotes and lease estimates for both trucks. The lease estimates fit in with the current lease line item in each department's budget.

Thank you for your consideration in this matter.

Sincerely,

Curtis Slayton  
Water & Sewer Superintendent
