		<b>plus 10%</b>		58.61
		<b>TOTAL</b>		644.72

1. Have your plumber install the meter and ensure that the meter is **ALWAYS** accessible. Place the white box (MXU) near the meter. Ensure all the fittings are tightened - **DO NOT OVERTIGHTEN**

2. Call at least two days ahead for a meter inspection. We will inspect the meter and hook up the MXU.

3. Make sure your expansion tank has been installed. Our technicians will not turn on the water service unless it is there and installed.

4. We will bill your account for the meter and/or parts supplied.

5. Make sure the account is paid in full. If it isn't, there will be no sign off on the occupancy permit and the water service will not be turned on until the account is paid in full.
