Billboard Request

December 11, 2024

The attached zoning petition is relative to the last billboard agreement between the Board and Mr. John and Mr. Greene. At this point the Select Board must refer this petition to the Planning Board, who would conduct the required public hearing and issue a recommendation. There remains a possibility that the Planning Board may choose to amend this petition and move forward outside the scope of a petitioned change, but that is a determination for the Planning Board to make.
