Water Department Vehicle Lease

February 26, 2025

The Board of Selectmen have prior approved a new vehicle lease for the water department funded through the FY 2025 budget. (Replacement vehicle using an existing lease line) As I am working on getting the vehicle over to water I am being asked for a formal vote of the Board. On that basis I request that the Board formally approve, again, the 2025 water vehicle lease so I may submit the required paperwork.
